Qualifying Races

(rule 4-1-2)

A qualifying event is one whose result may affect the status of a winning competitor (e.g., by gaining points). An event is deemed to be qualifying when there has been at least one race in which a minimum of two crews have been placed. A crew is not placed if it has been disqualified or has been given a verdict of 'Not Rowed Out'. None of the following are qualifying events:

- a 'head' or 'bumping' race
- a private match arranged solely between the clubs or competitors concerned
- open only to members of one club, or solely to the clubs of one university or other self-contained body
- races limited to disabled competitors
- a fun event generated on the day among existing competitors
- events held in 'playboats' or limited to competitors younger than J14, or handicap other than veteran or relay races
- events where competitors are allocated to crews on the day by the organisers
- events where special conditions apply and permission has been granted by the National Competition Committee
- events for mixed crews of men and women (see note to 4-1-9)
